

# Dream Worksheet

## Step 1: You have to invest in dreaming.

By investing, I mean spending time dreaming about your life.

- 1) Write out your dreams within each of these categories.  
Feel free to add your own!

Big Dreams

Fun Dreams

Things to be

Things to do

Things to have

Spiritual Dreams

Financial Dreams

Legacy Dreams

## Step 2: Become emotionally invested in these dreams.

- 1) Write about what your life would look like if these dreams came alive.

How would it make you feel?

How would it effect your family, your friends?

What lasting impact would you make in the lives of others?

## Step 3: Take an action step forward.

- 1) Review all the dreams you have written
- 2) Ask yourself — Which one excites me the most?
- 3) Find one action you can take toward giving life to your dream.

Live Your Dream .... Experience Your Passion
